Education

Thapar Institute of Engineering and Technology

Bachelor of Engineering in Computer Engineering; CGPA: 8.24/10

Sep. 2022 – May 2026

Patiala, Punjab

Tirumala Junior College

Senior Secondary Education (10+2); 96.7%

Jun. 2020 – May 2022

Katheru, Andhra Pradesh

Experience

Web Developer Intern

Feb 2026 – Jul 2026

Ellocent Labs IT Solutions Pvt. Ltd.

Mohali, Punjab

- Developed features for **Hiremii**, an AI-powered Applicant Tracking System (ATS), using **Next.js**, **Material UI**, **TypeScript**, **Zustand** for state management, and RESTful APIs.
- Designed and launched the **Talent Pool** module with AI-powered recommendations and advanced filtering, reducing recruiter search time by **50%**.
- Engineered a **Bulk Import** system that processed **5,000+** resumes per batch with real-time status and automating talent-pool linking and reduced manual entry by **90%**.
- Created an **Activity Logs** module that capturing **100%** of user actions, enabling filterable audit trails and accelerating compliance reporting by **30%**.
- Resolved **50+** frontend bugs, introduced lazy loading and memoization that cut page load time by **25%**, and integrated new backend APIs while actively participating in two-week Agile sprints.

Projects

Blogit – Full-Stack Blogging Platform | *React, Node.js, Express, MongoDB, JWT* | 🌐 Live Demo

Jul 2025

- Built a full-stack blogging platform with JWT-based authentication and complete CRUD for posts and comments.
- Integrated the Google Gemini API to auto-generate blog drafts from prompts, trimming content-creation time by **40%**.
- Architected MongoDB/Mongoose schemas supporting **10,000+** blog entries with optimized queries and validation.
- Integrated ImageKit API to handle blog image uploads with real-time optimization and CDN delivery, improving page load speed and user experience.
- Deployed on Vercel with CI, streamlining the dev-to-deployment cycle by **30%**.

Movie Discovery App | *React, TMDB API, Appwrite, Tailwind CSS* | 🌐 Live Demo

Jan 2025

- Built a movie search platform using the TMDB API to surface real-time results and a trending-movies leaderboard.
- Used Appwrite as a backend to persist search analytics and power custom trending logic.
- Implemented a dynamic search functionality and top **10** trending movies section using live TMDB API responses.
- Created a fully responsive, cross-device UI focused on fast, intuitive search.

Plant Disease Detection (Deep Learning) | *TensorFlow, Keras, ResNet101, Python* | 🐙 Repo

Mar 2025

- Developed a deep learning model using **ResNet101** architecture to detect and classify diseases in plant leaves of bell pepper, tomato, coriander, and lettuce.
- Curated and preprocessed a high-resolution image dataset from open-source agricultural databases, ensuring class balance and augmentation for model robustness.
- Achieved over **98%** classification accuracy using transfer learning and fine-tuning techniques with ResNet101 on labeled leaf disease datasets.
- Implemented data augmentation, normalization, and preprocessing techniques to improve generalization and reduce overfitting.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, Material UI, Responsive UI Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Appwrite

Databases: MongoDB, MySQL

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

Tools: Git, GitHub, VS Code, Postman, Vercel, Jupyter

Certifications

- Accelerating End-to-End Data Science** – NVIDIA [Certificate]
- Data Structures & Algorithms Mastery** – Vamsi Bhavani [Certificate]
- Full Stack Web Development Program** – Amaravathi Institute [Certificate]
